KEY WORD INDEX

ACDD
Fcγ receptor; Cytotoxicity; Immunoglobulin (Isturiz, M. A., 271)
Activation
T lymphocyte (Kay, J. E., 51)
AIDS
HIV; Dendritic cell; Epidermal Langerhans cell; Dinitrochlorobenzene (Stricker, R. B., 191)
Allograft
Epidermal transplantation (Fabre, J. W., 161)
Allospecific T cell recognition
Major histocompatibility complex (Lechler, R., 41)
Antibody
Renal transplantation; Blood transfusion; Graft enhancement (MacLeod, A. M., 123)
Antigen recognition
Eisenia foetida; Oligochaeta; Coelomocyte (Bilej, M., 241)
Artificial antigen receptor
B cell; T-independent antigen (Peacock, J. S., 247)

B cell
T-independent antigen; Artificial antigen receptor (Peacock, J. S., 247)
Blood transfusion
Renal transplantation; Graft enhancement; Antibody (MacLeod, A. M., 123)
Blood transfusion effect
Organ transplantation; Tolerance (Bradley, J. A., 127)
Bone marrow transplantation
Graft failure; Haplomismatched transplant; HLA-identical sibling transplant (Hows, J. M., 77)
Bone marrow transplantation
Immunosuppression; Immunomodulation (Barrett, A. J., 81)
Bronchoalveolar cells
MHC class II-positive cells; Lung allograft rejection (Chang, S.-C., 265)

CD2-negative T cell
Staphylococcal enterotoxin; Superantigen; T cell activation (Duan, X., 219)
CD4$^+$ cell
Veto; Tolerance; T helper cell; MHC class II (Tscherning, T., 223)
CD4$^+$ T cell clone
Human peripheral blood; TcRγδ (Kyoizumi, S., 197)
Cell surface carbohydrate
Neuraminidase; Exoglycosidase; Secondary antibody response; Suppressor T cell (Nakamura, M., 235)
Clinical transplantation
Xenograft (Cairns, T. D. H., 167)
Coelomocyte
Eisenia foetida; Oligochaeta; Antigen recognition (Bilej, M., 241)
Corneal grafting
Rejection; Immunological aspects (Prendergast, D. G. C., 73)
Cyclosporin
Drug monitoring; Pharmacokinetics (Holt, D. W., 99)
Cyclosporin
Graft-versus-host disease; Small bowel transplantation (Wood, R. F. M., 157)
Cyclosporine
T cell activation; Sensitation in vivo (Chisholm, P. M., 95)
Cytokine
FK-506; Rapamycin; T cell; Immunosuppression; Graft rejection (Thomson, A. W., 105)
Cytotoxicity
HAL; Serology; Typing; Histocompatibility (Dyer, P. A., 15)
Cytotoxicity
Fcy receptor; ACDD; Immunoglobulin (Isturiz, M. A., 271)

Decay-accelerating factor (DAF, CD55)
Deposition of complement C3; Membrane cofactor protein; Non-Hodgkin's lymphoma (Fukuda, H., 205)
Dendritic cell
AIDS; HIV; Epidermal Langerhans cell; Dinitrochlorobenzene (Stricker, R. B., 191)
Deposition of complement C3
Decay-accelerating factor (DAF, CD55); Membrane cofactor protein; Non-Hodgkin's lymphoma (Fukuda, H., 205)
Diabetes
Pancreatic islet transplantation (Gray, D. W. R., 153)
Dinitrochlorobenzene
AIDS; HIV: Dendritic cell; Epidermal Langerhans cell (Stricker, R. B., 191)
Drug monitoring
Cyclosporin; Pharmacokinetics (Holt, D. W., 99)

Eisenia foetida
Oligochaeta; Coelomocyte; Antigen recognition (Bilej, M., 241)
Epidermal Langerhans cell
AIDS; HIV: Dendritic cell; Dinitrochlorobenzene (Stricker, R. B., 191)
Epidermal transplantation
Allograft (Fabre, J. W., 161)
Exoglycosidase
Neuraminidase; Cell surface carbohydrate; Secondary antibody response; Suppressor T cell (Nakamura, M., 235)
Expression
Major histocompatibility complex; Tumour; HLA (Ruiz-Cabello, F., 181)

Fcγ receptor
Cytotoxicity; ACDD; Immunoglobulin (Isturiz, M. A., 271)
Fine-needle cytology
Renal transplantation; Monitoring (Hughes, D. A., 147)

FK-506
Rapamycin; T cell; Immunosuppression; Cytokine; Graft rejection (Thomson, A. W., 105)
FK-506
Flow cytometry; Lymphocyte subpopulation (Chen, M.-F., 255)
Flow cytometry
FK-506; Lymphocyte subpopulation (Chen, M.-F., 255)

Gene expression
Interleukin 1; Urate crystal; mRNA (Di Giovine, F. S., 211)
Graft enhancement
Renal transplantation; Blood transfusion; Antibody (MacLeod, A. M., 123)
Graft failure
Bone marrow transplantation; Haplomismatched transplant; HLA-identical sibling transplant (Hows, J. M., 77)
Graft rejection
FK-506; Rapamycin; T cell; Immunosuppression; Cytokine (Thomson, A. W., 105)
Graft-versus-host disease
Small bowel transplantation; Cyclosporin (Wood, R. F. M., 157)

HAL
Serology; Cytotoxicity; Typing; Histocompatibility (Dyer, P. A., 15)
Haplomismatched transplant
Bone marrow transplantation; Graft failure; HLA-identical sibling transplant (Hows, J. M., 77)
Hepatic transplantation
Immunological aspects (Adams, D., 69)
Histocompatibility
HAL; Serology; Cytotoxicity; Typing (Dyer, P. A., 15)
HIV
AIDS; Dendritic cells; Epidermal Langerhans cell; Dinitrochlorobenzene (Stricker, R. B., 191)
HLA
Major histocompatibility complex; Tumour; Expression (Ruiz-Cabello, F., 181)
HLA antigen
HLA class I; HLA class II; One-dimensional isoelectric focussing; Two-dimensional electrophoresis (Lanchbury, J. S. S., 23)
HLA class I
HLA antigen; HLA class II; One-dimensional isoelectric focussing; Two-dimensional electrophoresis (Lanchbury, J. S. S., 23)
HLA class II
HLA antigen; HLA class I; One-dimensional isoelectric focussing; Two-dimensional electrophoresis (Lanchbury, J. S. S., 23)
HLA matching
Transplantation (Bradley, B. A., 55)
HLA-identical sibling transplant
Bone marrow transplantation; Graft failure; Haplomismatched transplant (Hows, J. M., 77)
Human peripheral blood
$CD4^+$ T cell clone; TcR$\gamma\delta$ (Kyoizumi, S., 197)

Immunoglobulin
Fcγ receptor; Cytotoxicity; ACDD (Isturiz, M. A., 271)
Immunological aspects
Renal transplantation (Propper, D. J., 65)
Immunological aspects
Hepatic transplantation (Adams, D., 69)
Immunological aspects
Corneal grafting; Rejection (Prendergast, D. G. C., 73)
Immunomodulation
Bone marrow transplantation; Immunosuppression (Barrett, A. J., 81)
Immunophenotypic analysis
Renal transplantation; Leukocyte infiltration (Fuggle, S. V., 143)
Immunosuppression
Bone marrow transplantation; Immunomodulation (Barrett, A. J., 81)
Immunosuppression
FK-506; Rapamycin; T cell; Cytokine; Graft rejection (Thomson, A. W., 105)
Immunosuppressive therapy
Renal transplantation; Rejection (Briggs, J. D., 89)
Interleukin 1
Urate crystal; Gene expression; mRNA (Di Giovine, F. S., 211)

***Lepidoglyphus destructor* allergen**
Storage mice; Mite allergy; Monoclonal antibody (Ventas, P., 229)
Leukocyte infiltration
Renal transplantation; Immunophenotypic analysis (Fuggle, S. V.,143)
Lung allograft rejection
Bronchoalveolar cells; MHC class II-positive cells (Chang, S.-C., 265)
Lymphocyte
Neuroimmunomodulation; Stress; Muscular exercise; Naltrexone (Ferry, A., 261)
Lymphocyte subpopulation
FK-506; Flow cytometry (Chen, M.-F., 255)

Major histocompatibility complex
Restriction fragment length polymorphism (Middleton, D., 31)
Major histocompatibility complex
Polymerase chain reaction (Wordsworth, P., 37)
Major histocompatibility complex
Allospecific T cell recognition (Lechler, R., 41)
Major histocompatibility complex
Tumour; HLA; Expression (Ruiz-Cabello, F., 181)
Membrane cofactor protein (MCP,C CD46)
Deposition of complement C3; Decay-accelerating factor (DAF, CD55; Non-Hodgkin's lymphoma (Fukuda, H., 205)
MHC antigen expression
Transplantation (Fabre, J. W., 3)
MHC class II
Veto; Tolerance; $CD4^+$ cell; T helper cell (Tscherning, T., 223)
MHC class II-positive cells
Bronchoalveolar cells; Lung allograft rejection (Chang, S.-C., 265)
Minor histocompatibility antigen
Transplantation (Simpson, E., 9)

Mite allergy
Lepidoglyphus destructor allergen; Storage mite; Monoclonal antibody (Ventas, P., 229)
Monitoring
Renal transplantation; Rejection (Salaman, J. R., 139)
Monitoring
Renal transplantation; Fine-needle cytology (Hughes, D. A., 147)
Monoclonal antibody
Transplantation; Polyclonal antibody (Taylor, R. M. R., 113)
Monoclonal antibody
Therapy; Tolerance; Transplantation (Cobbold, S. P., 117)
Monoclonal antibody
Lepidoglyphus destructor allergen; Storage mite; Mite allergy (Ventas, P., 229)
Muscular exercise
Neuroimmunomodulation; Stress; Lymphocyte; Naltrexone (Ferry, A., 261)

Naltrexone
Neuroimmunomodulation; Stress; Muscular exercise; Lymphocyte (Ferry, A., 261)
Negative cross-match
Renal transplantation; Sensitised patient (Claas, F. H. J., 61)
Neuraminidase
Exoglycosidase; Cell surface carbohydrate; Secondary antibody response; Suppressor T cell (Nakamura, M., 235)
Neuroimmunomodulation
Stress; Muscular exercise; Lymphocyte; Naltrexone (Ferry, A., 261)
Non-Hodgkin's lymphoma
Deposition of complement C3; Decay-accelerating factor (DAF, CD55); Membrane cofactor protein (MCP,C CD46) (Fukuda, H., 205)

Oligochaeta
Eisenia foetida; Coelomocyte; Antigen recognition (Bilej, M., 241)
One-dimensional isoelectric focussing
HLA antigen; HLA class I; HLA class II; Two-dimensional electrophoresis (Lanchbury, J. S. S., 23)
Organ transplantation
Tolerance; Blood transfusion effect (Bradley, J. A., 127)

Pancreatic islet transplantation
Diabetes (Gray, D. W. R., 153)
Pharmacokinetics
Cyclosporin; Drug monitoring (Holt, D. W., 99)
Polyclonal antibody
Transplantation; Monoclonal antibody (Taylor, R. M. R., 113)
Polymerase chain reaction
Major histocompatibility complex (Wordsworth, P., 37)

Rapamycin
FK-506; T cell; Immunosuppression; Cytokine; Graft rejection (Thomson, A. W., 105)
Rejection
Corneal grafting; Immunological aspects (Prendergast, D. G. C., 73)
Rejection
Renal transplantation; Immunosuppressive therapy (Briggs, J. D., 89)
Rejection
Renal transplantation; Monitoring (Salaman, J. R., 139)
Renal transplantation
Sensitised patient; Negative cross-match (Claas, F. H. J., 61)
Renal transplantation
Immunological aspects (Propper, D. J., 65)
Renal transplantation
Immunosuppressive therapy; Rejection (Briggs, J. D., 89)
Renal transplantation
Blood transfusion; Graft enhancement; Antibody (MacLeod, A. M., 123)
Renal transplantation
Rejection; Monitoring (Salaman, J. R., 139)
Renal transplantation
Leukocyte infiltration; Immunophenotypic analysis (Fuggle, S. V., 143)
Renal transplantation
Monitoring; Fine-needle cytology (Hughes, D. A., 147)
Restriction fragment length polymorphism
Major histocompatibility complex (Middleton, D., 31)
mRNA
Interleukin 1; Urate crystal; Gene expression (Di Giovine, F. S., 211)

Secondary antibody response
Neuraminidase; Exoglycosidase; Cell surface carbohydrate; Suppressor T cell (Nakamura, M., 235)
Sensitation in vivo
Cyclosporine; T cell activation (Chisholm, P. M., 95)
Sensitised patient
Renal transplantation; Negative cross-match (Claas, F. H. J., 61)
Serology
HAL; Cytotoxicity; Typing; Histocompatibility (Dyer, P. A., 15)
Small bowel transplantation
Graft-versus-host disease; Cyclosporin (Wood, R. F. M., 157)
Staphylococcal enterotoxin
CD2-negative T cell; Superantigen; T cell activation (Duan, X., 219)
Storage mite
Lepidoglyphus destructor allergen; Mite allergy; Monoclonal antibody (Ventas, P., 229)
Stress
Neuroimmunomodulation; Muscular exercise; Lymphocyte; Naltrexone (Ferry, A., 261)
Superantigen
CD2-negative T cell; Staphylococcal enterotoxin; T cell activation (Duan, X., 219)
Suppressor T cell
Neuraminidase; Exoglycosidase; Cell surface carbohydrate; Secondary antibody response (Nakamura, M., 235)

T cell
FK-506; Rapamycin; Immunosuppression; Cytokine; Graft rejection (Thomson, A. W., 105)

T cell activation
Cyclosporine; Sensitation in vivo (Chisholm, P. M., 95)
T cell activation
CD2-negative T cell; Staphylococcal enterotoxin; Superantigen (Duan, X., 219)
T helper cell
Veto; Tolerance; $CD4^+$ cell; MHC class II (Tscherning, T., 223)
T lymphocyte
Activation (Kay, J. E., 51)
T-independent antigen
B cell; Artificial antigen receptor (Peacock, J. S., 247)
TcRγδ
Human peripheral blood; $CD4^+$ T cell clone (Kyoizumi, S., 197)
Therapy
Monoclonal antibody; Tolerance; Transplantation (Cobbold, S. P., 117)
Tolerance
Monoclonal antibody; Therapy; Transplantation (Cobbold, S. P., 117)
Tolerance
Organ transplantation; Blood transfusion effect (Bradley, J. A., 127)
Tolerance
Transplantation (Wood, K. J., 133)
Tolerance
Veto; $CD4^+$ cell; T helper cell; MHC class II (Tscherning, T., 223)
Transplantation
MHC antigen expression (Fabre, J. W., 3)
Transplantation
Minor histocompatibility antigen (Simpson, E., 9)
Transplantation
HLA matching (Bradley, B. A., 55)
Transplantation
Monoclonal antibody; Polyclonal antibody (Taylor, R. M. R., 113)
Transplantation
Monoclonal antibody; Therapy; Tolerance (Cobbold, S. P., 117)
Transplantation
Tolerance (Wood, K. J., 133)
Tumour
Major histocompatibility complex. HLA; Expression (Ruiz-Cabello, F., 181)
Two-dimensional electrophoresis
HLA antigen; HLA class I; HLA class II; One-dimensional isoelectric focussing (Lanchbury, J. S. S., 23)
Typing
HAL; Serology; Cytotoxicity; Histocompatibility (Dyer, P. A., 15)

Urate crystal
Interleukin 1; Gene expression; mRNA (Di Giovine, F. S., 211)

Veto
Tolerance; $CD4^+$ cell; T helper cell; MHC class II (Tscherning, T., 223)

Xenograft
Clinical transplantation (Cairns, T. D. H., 167)
